News Bulletin from Colwill Engineering February 2012

Charter Schools in Tampa, Brandon, Bradenton and Tallahassee scheduled to open in 2012

Following the successful conclusion of the **Winthrop** K-6 School and the **Woodmont** K-8 Schools, **Colwill Engineering** has contracted with **Ryan Companies US, Inc.** to participate in **four additional Charter USA Schools** in Tampa, Bradenton and Tallahassee.

Building on the experience from the first projects, the design phase is an opportunity to assist the client in refining the approach and finding ways to achieve their objectives in a very cost effective manner. Construction of these new facilities is scheduled for the summer of 2012.

Winthrop Charter School K-6
(Completed in 2011)

Woodmont Charter School K-8
(Completed in 2011)

All of these Charter Schools boast a wide range of learning environments ranging from Multi-Purpose Rooms, Classrooms, Laboratories, Music-Rooms and Outdoor Spaces. Unique features include an Ethernet based learning system to include smart boards in all classrooms, Wireless Overhead Paging System for student release functions, and VoIP Telephony capabilities allowing two-way communications between all classrooms. Aggressive timeframes and key project milestones were all achieved by utilizing our team of highly trained and experienced staff.

Charter USA is one of the largest providers of charter School Management Services in the nation. Charter schools are innovative public schools designed by educators, parents or civic leaders that are open by choice, accountable for results, and free from most rules and regulations governing conventional public schools. *Charter Schools USA*

Colwill Engineering is delighted to continue to be part of the Ryan Companies US, Inc. design build team and look forward to the completion of these innovative learning facilities.
