Saint Agnes' Episcopal Church Miami, Florida

Hyde Park Architects recently contracted Colwill Engineering to provide mechanical, electrical and plumbing design services for the addition and interior remodel at Saint Agnes' Episcopal Church.

Saint Agnes Episcopal Church one of Miami's oldest and largest churches had its origin in October 1897. Saint Agnes' Episcopal Church is recognized as a Miami landmark by *The Black Archives History and Research Foundation of South Florida*.

We are delighted for the opportunity to provide engineering services for this historic project.
